Education

Deogiri College

Bachelor of Computer Application

Oct 2021 – March 2024

Chh. Sambhajinagar, Maharashtra

Skills

- DSA
- Java
- React.js
- Mongo DB
- SQL
- Express.js
- Node.js
- TypeScript
- Next.js
- Tailwind CSS
- Redux Toolkit
- RTK Query

Experience

Skillhub IT Solutions

April 2023 – August 2023

Intern

Chh. Sambhajinagar, Maharashtra, India

- Contributed to dynamic web app development.
- Translated UX designs into responsive interfaces using HTML, CSS, JavaScript, and ReactJS.
- Developed server-side logic, optimized databases.
- Collaborated with the team to solve challenges and improve functionality.
- Embraced Agile methodologies, participated in sprints, and code reviews.
- Proficient in Git, version control, and deployment processes.
- Actively learned and applied new tools and technologies.
- Contributed to the development of a Job Portal System.

Projects

E-commerce Platform | MERN Stack

- Developed a dynamic e-commerce platform using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Designed user-friendly interfaces with responsive design and integrated secure payment gateways.
- Implemented secure user authentication to protect user accounts and personal information.
- Built an admin panel with role-based access control for efficient management of products, orders, and users.
- Optimized website performance by employing best practices and efficient coding techniques.
- Managed databases for efficient product operations, ensuring data integrity and reliability.

URL Shortener | JavaScript, Node.js, Express

- Built a URL shortening service using React, Node.js, and Express.
- Implemented secure authentication to control access and manage user-generated short URLs.
- Built an admin panel for monitoring and managing short URLs, enhancing overall system control.
- Ensured data persistence and retrieval for the shortened URLs with a focus on performance.
- Incorporated best practices to optimize the service for quick and reliable URL redirection.

Campus Recruitment Website | React.js, Node.js, MongoDB

- Developed a web platform for campus recruitment using React.js, Node.js, and MongoDB.
- Implemented secure authentication for recruiters and candidates to safeguard sensitive data.
- Designed an intuitive and responsive user interface for efficient job posting and application submission.
- Built an admin panel for recruiters to manage job listings, applications, and overall recruitment process.
- Optimized website performance to ensure a seamless and responsive recruitment process.
- Incorporated best practices for data security and overall system performance.

Technical Skills

Languages: Python, Java, C, HTML/CSS, JavaScript, SQL, MERN Stack (MongoDB, Express.js, React.js, Node.js)

Developer Tools: VS Code, Eclipse, Google Cloud Platform, Android Studio, AWS

Technologies/Frameworks: Linux, Jenkins, GitHub, WordPress

Leadership / Extracurricular

Smart India Hackathon 2023

2023

Participant

- Contributed to solving real-world problems during the Smart India Hackathon 2023.

GDSC WOW 2023 Pune

2023

Participant

- Participated in GDSC WOW 2023 Pune organized by Google Developer Student Clubs.
